ALL AROUND

OVER SEAS AND UNDERGROUND

I've been an artist for as long as I can remember. Began painting graffiti in 1994, growing up in a rural part of Sheffield in northern England.

Enjoyed painting the many empty and abandoned buildings I found on my travels. I was always inspired by plants, and the natural world, and how quickly these quiet and empty industrial buildings were reclaimed by nature.

After graduating in fine art I moved towards street art, painting larger more prominent mural pieces in the city. From there I began travelling with my work across Europe and further afield, eventually settling in Portugal.

Today my work is a fusion of sci-fi and surrealism, combining environmental concern, plants and nature, with a love for science and technology, brought together with a signature colour pallet using both brushes and spray paint.

MURALS

Title: Proxima Centauri

Location: Porto Portugal

Date: 2025

Painted as a commission for a new office building

Title : Forbidden fruit

Location : Southend

Date : 2024

Painted for Southend city jam Festival. This was a huge event for UK street art and the biggest UK event of the year.

Title : Overview

Location: Omsk Russia

Date: 2024

The overview effect is a cognitive shift reported by some astronauts while viewing the Earth from space. Researchers have characterized this effect as "a state of awe with self-transcendent qualities, precipitated by a particularly striking visual stimulus." The most prominent common aspects of personally experiencing the Earth from space include, appreciation, perception of beauty, unexpected and even overwhelming emotions and an increased sense of connection to other people and the Earth as a whole. The effect can cause changes in the observer's self-concept and value system, leading to a transformative experience.

Title : Warriors in a garden

Location: La Baneza Spain

Date: 2024

Painted for ArtAeroRap event in La Baneza in Spain. Nestled in a small rural town in northern Spain this was one of my favourite events of 2024

Title : Trappist One

Date: 2024

Location: Tirana Albania

Painted for Tirana mural fest

Albania was a great experience, a lot of chaos but together with the organisers, we made it work.

Title: Transitions

Location: Sochi Russia

Date: 2024

Painted for New Forms festival.

The aim of this mural was to depict a move away from old 20th century ways.

To transition from fossil fuels and war, to a cleaner, greener future, focused on science, sustainability and space exploration.

Title : The World In Our Hands

Location: Lisbon

Date: 2021

A project to capture many things, I wondered if it was even possible. The brief was to create a piece which showed community and unity amongst nations, to remind people about the importance of recycling, and finally the cycle of life of all creatures on Earth. This was such a fantastic project to work on and my biggest wall to date. It was also my first wall painted entirely with brushes.

With this piece I felt like I had a real opportunity to speak to a large number of people with a powerful but positive message.

Title: The Others

Location: Cascais Portugal

Date: 2021

*Painted for Infinito festival in the summer of 2021,
I wanted to create something dreamy that captured today's
obsession with conspiracy theory.
Long dusty desert roads, hot summer tones with night time purples,
a dream within a dream.
'The others' was my favourite piece of 2021*

Title: Brain Waves

Location: Solnechnodolsk Russia

Date: 2021

I'm constantly reading about the latest science and research news, One study I found interesting was how humans can have their wellbeing and moods lifted when we spend time in nature, decreasing negative thoughts and increasing positive brain waves.
