ALL AROUND

OVER SEAS AND UNDERGROUND

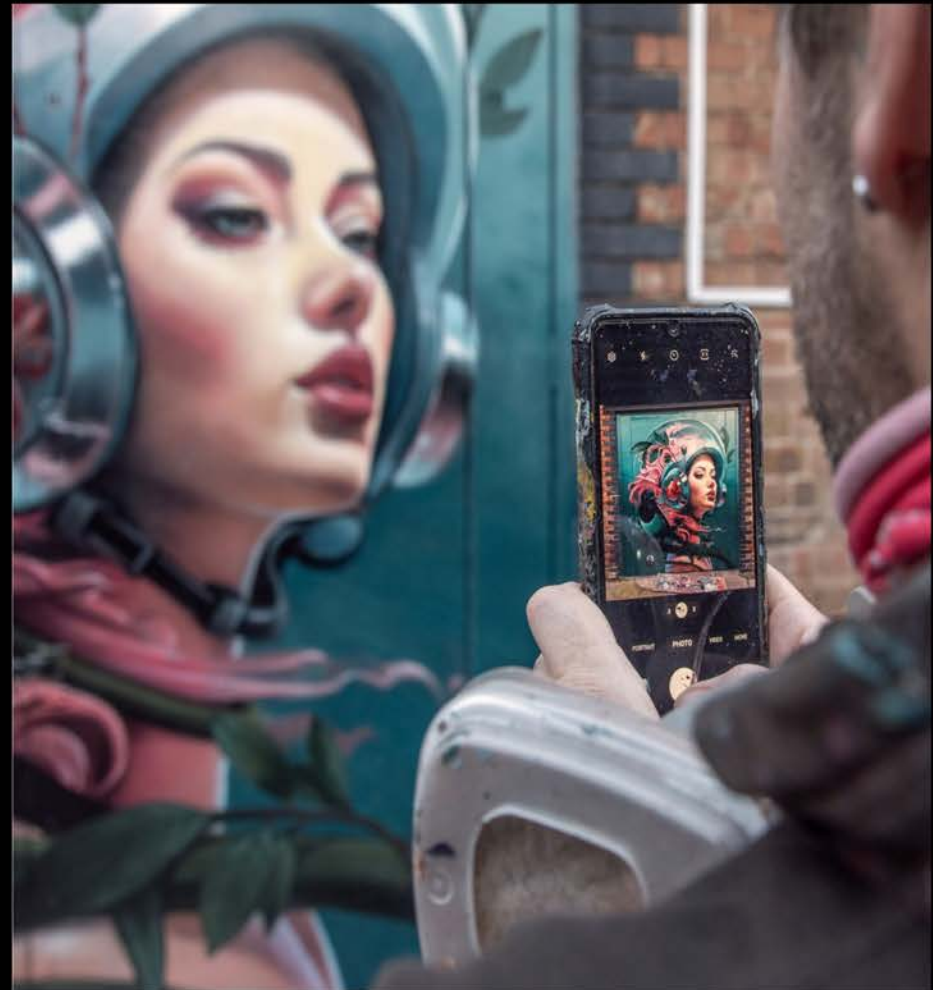

I've been an artist for as long as I can remember. Began painting graffiti in 1994, growing up in a rural part of Sheffield in northern England.

Enjoyed painting the many empty and abandoned buildings I found on my travels. I was always inspired by plants, and the natural world, and how quickly these quiet and empty industrial buildings were reclaimed by nature.

After graduating in fine art I moved towards street art, painting larger more prominent mural pieces in the city. From there I began travelling with my work across Europe and further afield, eventually settling in Portugal.

Today my work is a fusion of sci-fi and surrealism, combining environmental concern, plants and nature, with a love for science and technology, brought together with a signature colour pallet using both brushes and spray paint.

MURALS

Title: Transitions

Location: Sochi Russia

Date: 2024

Painted for New Forms festival.

The aim of this mural was to depict a move away from old 20th century ways.

To transition from fossil fuels and war, to a cleaner, greener future, focused on science, sustainability and space exploration.

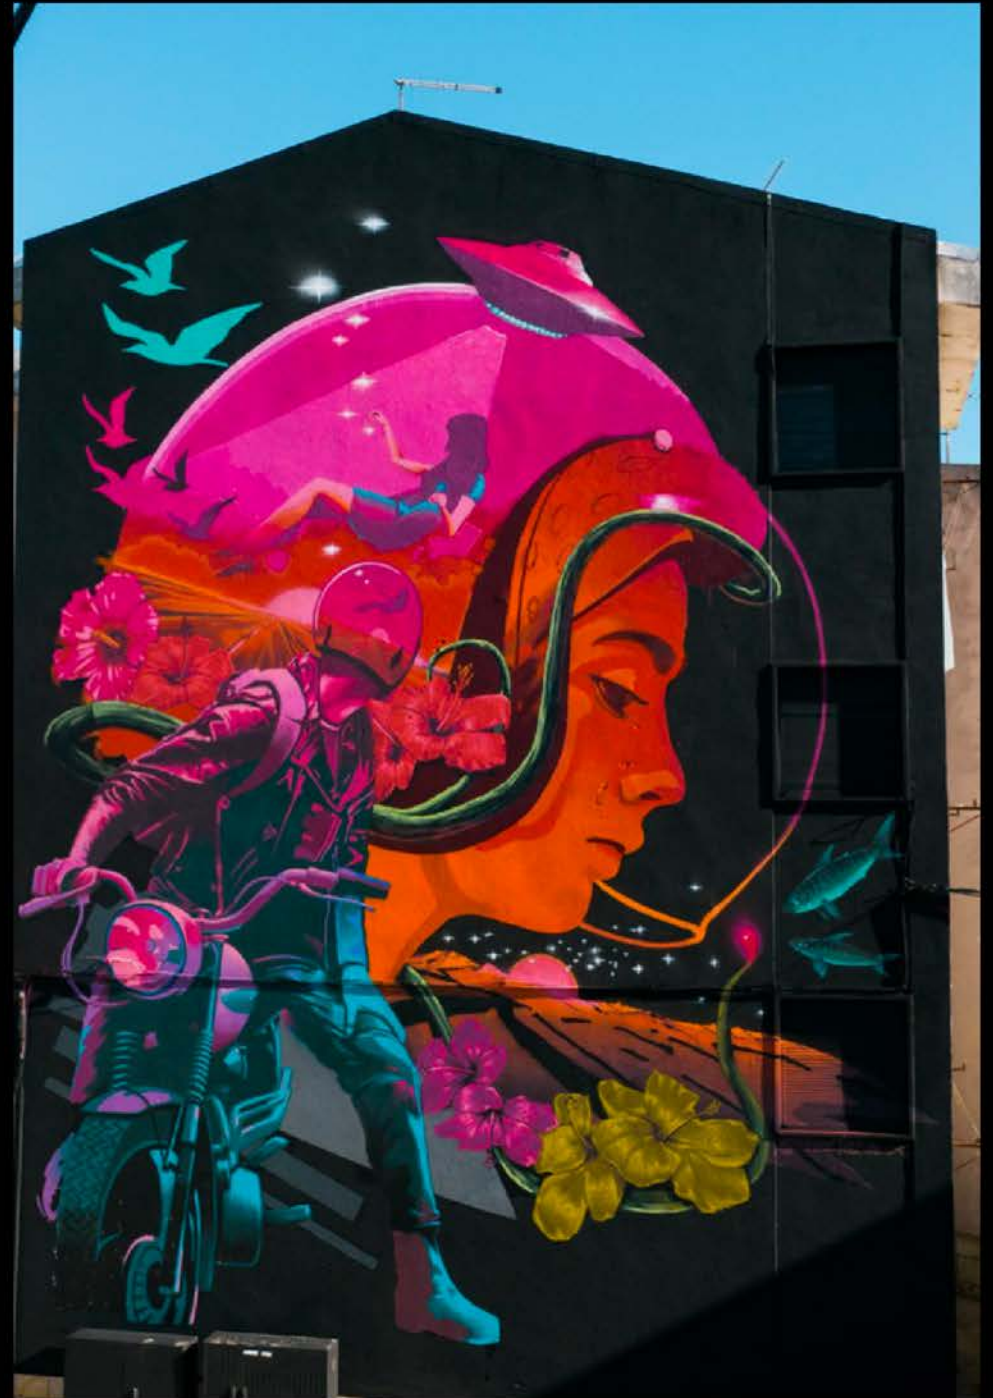

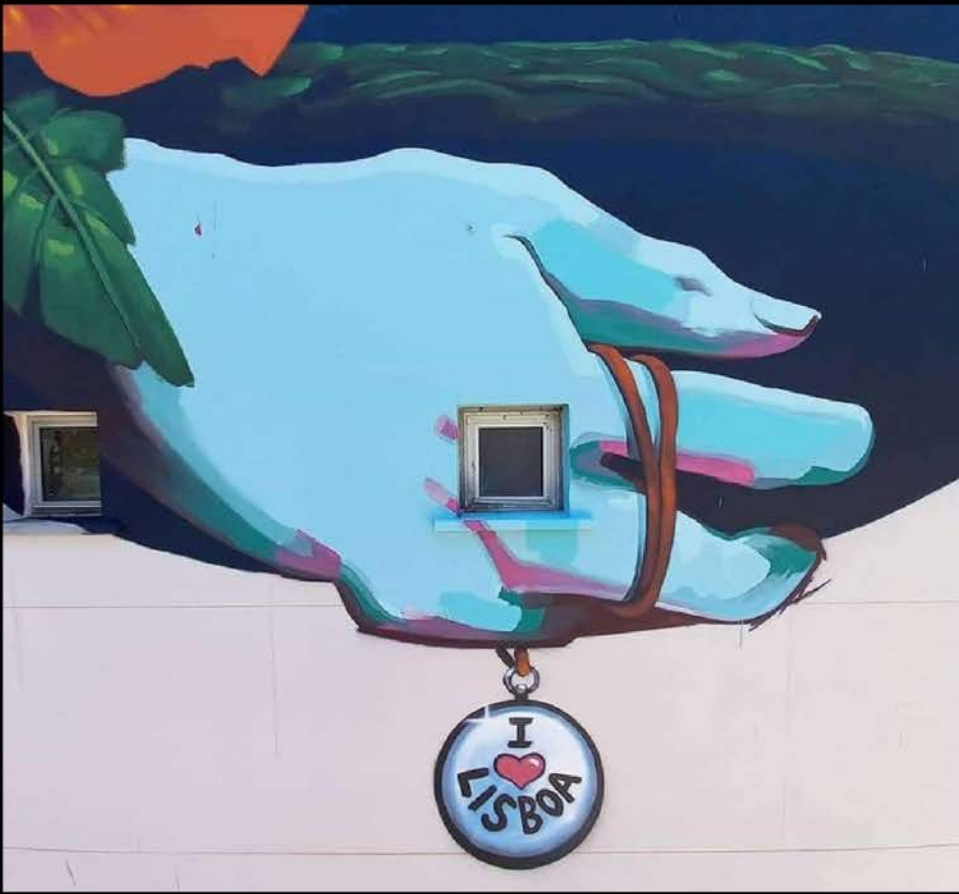

Title: The Others

Location: Cascais Portugal

Date: 2021

*Painted for Infinito festival in the summer of 2021,
I wanted to create something dreamy that captured today's
obsession with conspiracy theory.
Long dusty desert roads, hot summer tones with night time purples,
a dream within a dream.
'The others' was my favourite piece of 2021*

Title : The World In Our Hands

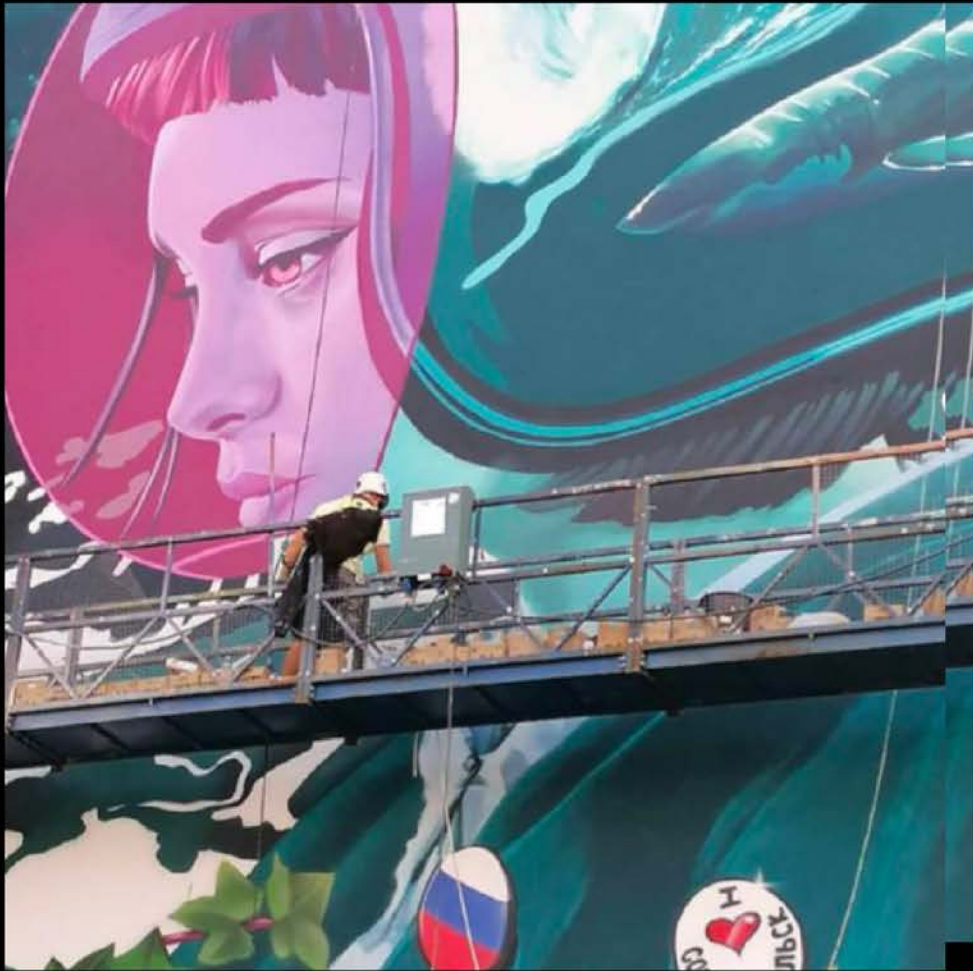

Location: Lisbon

Date: 2021

A project to capture many things, I wondered if it was even possible. The brief was to create a piece which showed community and unity amongst nations, to remind people about the importance of recycling, and finally the cycle of life of all creatures on Earth. This was such a fantastic project to work on and my biggest wall to date. It was also my first wall painted entirely with brushes.

With this piece I felt like I had a real opportunity to speak to a large number of people with a powerful but positive message.

Title: Brain Waves

Location: Solnechnodolsk Russia

Date: 2021

I'm constantly reading about the latest science and research news, One study I found interesting was how humans can have their wellbeing and moods lifted when we spend time in nature, decreasing negative thoughts and increasing positive brain waves.

Title : Watchers In The Woods

Location: Worcester, UK

Date: 2022

I was given a free reign to paint a subject of my choice. Continuing my journey into sci-fi and surrealism, and keeping my signature imagery of badges, birds and helmets, I touched upon those classic 80's movie scenes. Watchers in the woods was not only about the UFO in the sky, but also the smaller creatures which watch us from the undergrowth as we pass by.

Title : Mother Nature

Location : Moscow

Date : 2019

Painted for Urbanmorphogenesis Festival. This was a huge event with artists from all over the world attending.

Title : Fire And Flood

Location: Lelystad Netherlands

Date: 2022

Painted for Writers block organisation in the centre of Lelystad. The town centre was undergoing regeneration and the wall was opposite a cycle park. The centre of Lelystad was at one time also underwater due to natural flood planes, and so it seemed fitting that an environmental theme in combination with cycling would work well.
